25X1

1. [redacted] fifteen to twenty naval vessels were observed far out to sea in the region off Teriberka (N 69-11, E 35-08). The vessels were steaming at top speed on a westerly course. It was impossible to see the exact formation of the vessels. However, this group consisted of a number of small- and medium-sized units followed by two or three large vessels. [redacted] 25X1
2. [redacted] nearest medium-sized vessel, [redacted] had two stacks, a mast forward of the first stack, and possibly a short mast forward of the second stack. The other vessels were too far off to observe any details. [redacted] 25X1
3. On the same afternoon a large vessel was seen in Motovskiy Gulf (N 69-30, E 33-00) between Set Navolok (N 69-24, E 33-00) and Tsyp Navolok (N 69-42, E 33-08). The vessel proceeded at reduced speed toward the Kola Inlet. It had two masts and two stacks [redacted] 25X1
4. [redacted] many naval vessels at anchor in Vayenga Bay (N 69-05, E 33-26) and many small vessels both moored and at anchor in the vicinity of the large floating dock farther inside the inlet [redacted] 25X1
5. Early in the afternoon three aircraft were seen flying back and forth on an east to west course off the mouth of the Kola Inlet. They were flying fairly low. They were jet aircraft with wings sharply swept back along the leading edges and perpendicular to the fuselage along the trailing edges; the wing tips were pointed and the wing surfaces next to the fuselage were broad.
